The Pittsburgh Gazette.

FRIDAY, MAY 18, 1866.

SPRINGER HARBAUGH, Government Director in the Union Pacific Railroad Company, has just returned from a visit on the line of its operations. He reports the work as progressing vigorously and satisfactorily. All that money and men can do, is being done. Mr. HARBAUGH will make an official report to the government in a few days, which we hope to lay before our readers.

As the successor to Mr. COWAN in the United States Senate, various gentlemen have been named; as WILLIAMS, CURTIN, FORNEY, KELLEY, CAMERON, GROW, CESSNA, SCHOFIELD, THOMAS, and STEVENS. The contest will narrow down to two or three names. Mr. COWAN is operating with sufficient vigor, but without discretion, to secure a renewal of his term. He does not look to Republicans for support, for he knows he is not regarded by them as being one of their number, nor does he regard himself as belonging with them. Neither does he expect the Democrats to elect him if they shall chance to have the undisputed power to choose whom they will. What he hopes is to secure the election of a few mute Republicans to the Legislature; enough to give them the balance of power; and so force the Democrats to accept him. The scheme is pretty enough, but it will not work.

HON. JAMES KERR and E. MCJUNKIN, Esq., are announced in the Bulter *American* as candidates for Congress in the 33d district, subject to the decision of the Republican Convention. This is Mr. WILLIAMS's district.

The Kittanning *Free Press* states that Mr. Phelps declines being a candidate for Congress, and that it knows of no person in Armstrong who is at present aspiring to that position. This seems to put Mr. WILLIAMS's re-nomination beyond probable question.

In the 11th Congressional district, Mr. Johnson, the Democratic incumbent, will not be a candidate for renomination. His health is so bad that he has not been in his seat for seven weeks past. Of course he will be succeeded by a Democrat. The nomination is conceded to Pike county. Mr. Henry A. Mott, formerly Canal Commissioner and State Senator, hopes to make it; but a sharp fight has been commenced on him, and he may fail.

FEW MEN, on brief acquaintance, have impressed us more favorably than Colonel Jacques. The charge brought against him at Louisville, of being concerned in an abortion case, which resulted in the death of Mrs. Williams, was a cruel blow to his family and friends. His acquittal by a jury, not likely to be biassed in his favor, is extremely gratifying to them all.

A CALL for a third party nominating convention has been issued in Somerset county. It bears the names of several hundred citizens, including all the prominent copperhead democrats of the county. It pledges an earnest support to ANDREW JOHNSON. The question now is, what has become of the *second* party in Somerset?

SIX MONTHS AGO, Dr. Palemon John, editor of the Bloomsburg *Republican*, was appointed Assessor of the 13th district of Pennsylvania. He could not, however, support the President's Policy. He has, consequently, been removed, and a new paper has been started to advocate the principles he could not.

IN the 21st district Mr. A. WILSON TAYLOR and Dr. THOMAS ST. CLAIR, both of Indiana county, are announced as candidates for Congress, subject to the republican conference. Mr. FULLER's friends are confident he will yet out Mr. DAWSON; in which case they hope he will be nominated again.

SCHOFIELD, WILSON, MERCER, KELLEY and STEVENS will unquestionably be renominated for Congress. Indeed, it is probable all the Republican incumbents, except CULVER and MILLER, will again be candidates. FINNEY has a chance of succeeding CULVER.

MEN who served not less than nine months in the army, or who were discharged because of wounds or sickness, and the widows and orphans of such, are exempt, by law of the late Legislature, from the payment of all bounty and militia taxes.

THE New York *Tribune* suggests that as the democratic candidate for Governor of that State next fall will have nothing to gain but notoriety, he should be brought out early, so as to have a good deal of this.

THE Lancaster *Intelligencer*, Jas. BUCHANAN's home organ, is out in favor of COWAN's re-election to the U. S. Senate. We do not wonder Mr. COWAN finds apparent approbation in that quarter.

THE war cloud that for weeks past, has overhung Europe, grows darker. Financial disturbances follow, which fears are entertained, may cross the Atlantic, and lead to embarassments here.

THE Wheeling *Intelligencer* predicts the sweeping ratification of the radical amendments proposed to the Constitution of West Virginia, at the election to be held on the 24th inst.

THE Hon. James R. Kelley, Speaker of the late House of Representatives at Harrisburg, is in a fair way to be promoted to the Senate, as the successor of Mr. Hopkins, Democrat.

GEN. KNIPE, recently appointed Postmaster at Harrisburg, is a delegate to the Soldiers' Geary Convention, to be held in this city, and was appointed with his free conent.

THE Republicans of Juniata county nominate on the 19th inst.; Cambria on the 28th inst.

Does Advertising Pay?

Judicious advertising is not fully understood or practiced by nine-tenths of our business community. Many merchants are so far behind the spirit of the age, as to have a dread for the expense of printers' ink. Without hesitation they brand the policy of liberal advertising as ruinous. The prejudice is fast passing away, however, for this age is an active progress, and if we would be successful we must keep pace with it. Among the many shrewd merchants of this city who years ago commenced a system of judicious and extensive advertising, and are now reaping the profits from it, we might specially mention Mr J. R. Gaston, the enterprising and prosperous proprietor of Concert Hall shoe store. A few years ago he came into our midst a comparative stranger, but to-day, in connection with his mammoth shoe establishment, his name is familiar to every man, woman and child in this section of the country. This is easily accounted for. He opened such a palatial establishment as astounded our citizens. He purchased and kept on hand a stock of boots, shoes and gaiters not to be surpassed in quality by that found in any eastern house; he established unfrightfully low prices and lost, but by no means the least element of his success, he advertised liberally. He is a firm believer in the policy of advertising, and as its necessary result, coupled with the quantity, quality and price of his stock, he now drives a flourishing business, and takes his place among the prosperous representative merchants of the city. His store, No. 60 Fifth street, is well filled with all descriptions of pedal coverings, which he advertises to sell at his usual low prices.

Peace hath its Victories.
To prevent or conquer disease is a grand achievement; and as surely as bullet and bayonet will destroy, so surely will HOSTETTER'S BITTERS *prevent* and *prolong* life.
This is the most trying period of the year. The stamina of the strongest yields more or less to the consuming temperature of midsummer. Vigor oozes from every pore. The strength of man passes away in invisible vapor, and weaker woman becomes relaxed and nerveless. It was to meet such difficulties that Hostetter's Bitters were given to society. It is to prevent the evil consequences to which an unbraced, dispirited, debilitated organization is liable, that they are recommended as a SUMMER TONIC for both sexes. Old people die of exhaustion every day, who might have kept death at bay for years to come, by an occasional resort to this powerful and harmless vegetable stomachic.
Nine tenths of the community, rich as well as poor, *work* continually. If their hands are unemployed, their brains are busy, and head work is as depressing to the vital energies as muscular toil. But tone the system with Hostetter's Bitters and the wear and tear of business life will be comparatively unfelt even in the most oppressive weather. No languor will be experienced, for as fast as the vital forces are expended they will be recruited and renewed by this healthful restorative. As a sunday invigorant it is indispensable to young and old. Sold everywhere.

Hostetter's Bitters
Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Market, near Fourth street.

Virginia Union Convention—Remarks of J. Minor Botts.

WASHINGTON, May 17.—The Union State Convention of Virginia met at Alexandria to-day. There was a large attendance of delegates, among them John Minor Botts, who said he was self-constituted, for he came from Culpeper, where there were Union men, but they had held no meeting. He did not know it to be a fact, but he believed that he was the only man in the county who was not ashamed of being seen at a union meeting. He had come in, however, to make their number one more, and would leave it to the Convention to say whether he should be considered a member or not.

The chairman stated it was necessary for some one to vouch for Mr. Botts, and as he knew that he had faithfully served in McDaniel's negro jail, he would endorse him, especially as he had understood that he had performed his duties faithfully. Mr. Mckenzie said there was no trouble in regard to Mr. Botts, but it was other persons he was inquiring after.

A delegate from Frederick county stated that the Union voters there numbered about six hundred and fifty, and that recently about one hundred and fifty Northern men had settled in that county.

Mr. Clemenis, of Portsmouth, spoke of the late election in that city, when the disloyal persons forced the Judges of Election to close the polls, and he stated that the Unionists could poll about 450 votes against 800 by the rebels.

The Committee on Permanent Organization reported the following list of officers: John Minor Botts, President; Messrs. Lewis, McKenzie, Burnham, Wardwell and W. A. Gray, Vice Presidents; and W. J. Cowing, A. M. Crane and C. E. Gilmor, Secretaries. The report was adopted.

The Army Bill—General Grant Urges its Passage—Freedmen's Bureau Investigation—Intrigues of Santa Anna.

NEW YORK, May 17.—Specials to the evening papers say the President has sent a message to the House enclosing a communication from General Grant, asking for the immediate passage of an army bill, assigning as a reason for this request the fact that more troops are needed on the frontier and at the South. He also expresses the opinion that the troops cannot be withdrawn from the South with safety for some time to come.

The House Committee on the Freedmen's Bureau have agreed to report a resolution for the appointment of a joint Committee of Congress to investigate the workings of the Freedmen's Bureau, to travel through the southern States, to take testimony, and to report to Congress.

In regard to the intrigues, in which Santa Anna is concerned, has prompted a general desire in Washington to have Juarez aided, but the success of the proposed Mexican loan is very doubtful.

Death of a Minister—Decision in the Isham Henderson Case.

LOUISVILLE, May 17.—Rev. Theodore Clapp, a native of Massachusetts, and for many years a Unitarian minister in New Orleans, died here this evening.

The *Journal* publishes an elaborate opinion of Judge Bland Ballard, of the United States District Court, relative to Isham Henderson, concluding that the Executive and Legislative departments of the government having declared that the rebellion is ended, the Court cannot assume that it continues; that this opinion furnishes the solution of the whole political status of the inhabitants of the States lately in rebellion; that this is a question which must answered elsewhere; that the Court was bound to order the arrest of General Davis for the apparent contempt offered the Court, and that he having resisted the order of arrest, is criminally responsible, and that his case will be presented to the Grand Jury.

Asylum for Disabled Soldiers—Claim Agent Defined.

WASHINGTON, May 17.—Among the important questions to be decided by the Board of Managers of the Asylum for Disabled Volunteer Soldiers, are the number of asylums to be established and where located, what kind of buildings shall be erected, what officers shall be appointed, and what their duties shall be. Secretary Stanton is of the opinion that the unreclaimed and forfeited pay of the army, which now belongs to this Asylum, amounts to nearly $6,000,000.

The Commissioner of Internal Revenue decides that a claim agent is one whose business it is to prosecute claims in any of the executive departments of the Government, or to procure patents, and that a person who prosecutes said claim gratuitously cannot be said to make the prosecution of claims his business, and need not take out a license as claim agent.

LETTER FROM GEN. GRANT.

Urgent Necessity for the Passage of the Army Bill.

WASHINGTON, May 17.—The President sent a message to the House to-day enclosing the following communication from Lieut. General Grant.

HEADQUARTERS ARMIES U. S., }
Washington, D. C., May 16, 1866. }

To Hon. E. M. Stanton, Secretary of War, SIR: In view of the long delay in the lower House of Congress, in agreeing upon a plan for the reorganization of the army, suitable to our present requirements, and the urgent necessity for early action, I am induced to present the matter to you officially, and to ask the attention of Congress to it, believing that when they have the matter fairly before them, they will do what should be done speedily. At the present time settlements are springing up with unusual rapidity in the district of country between the Missouri river and the Pacific Ocean, where heretofore the Indian was left in undisputed possession. Emigrants are pushing to these settlements and to the gold fields of the Rocky Mountains by every available highway. The people flocking to those regions are citizens of the United States, and are entitled to the protection of the Government. They are developing the resources of the country to its great advantage, thus making it the interest as well as the duty to give them military protection. This makes a much greater force west of the Mississippi necessary than was ever heretofore required.

A small military force is required in all the States lately in rebellion, and it cannot be foreseen that this force will not be required for some time to come. It is to be hoped that this force will not be necessary to enforce the laws, either State or national, but the difference of sentiment engendered by the great war which has raged for four years, will make the presence of a military force necessary to give a feeling of security to the people. All classes disposed to obey the laws of the country will feel this alike To maintain order the Government has been compelled to retain volunteers all the while. The volunteers have become dissatisfied, and claim that the contract with them has been violated by retaining them after the war was at an end, by reason of dissatisfaction they are no longer of use, and every one now remaining in the service might as well be discharged at once. The colored volunteers have equal rights to claim his discharge, but as yet he has not done so. How will the existing laws authorize the retention of this force, even if they are content to remain? The United States Senate passed promptly a bill for the reorganization of the army, which, in my opinion, is as free from objection as any general bill can be made possibly be. Besides, it would supply the minimum requisite force. It gives but a few thousand additional men over the present organization, but gives a large number of idle battalions and companies, and the public guarding routes over the plains and giving protection in the southern States demand the occupation of a great number of posts. For many of them a small company is just as efficient as one with more men would be. The bill before Congress, or the one that has passed the Senate, gives an increased number of companies, by diminishing the number of the rank and file of each company. It is exceedingly appropriate measure in this particular, for it provides for the increase when occasion requires more men. The company is the smallest unit of organization that can be used, without materially injuring discipline and efficiency.

The belief that Congress would act promptly in this matter if their attention was called to it, has induced me to respectfully ask your attention to it. If you agree with me in this matter, I would ask that you bring it promptly, that this, with such endorsement as you may be pleased to make, be laid before Congress through the Speaker of the House.

Very respy. your ob't. servant,
U. S. GRANT, Lieut. Gen.

MORE INDIAN TROUBLES.

Investigations by Governor of Idaho.

BAD WHITES THE AGGRESSORS

WASHINGTON, May 17.—The Governor of Idaho has addressed a letter to the Commissioner of Indian Affairs, informing him of the massacre of some sixteen friendly Indians, on the 11th of March, fifteen miles above this city, near the mouth of Moore's Creek, on the Boise River, by a party of citizens of Idaho City. He comments on the matter by saying:

"There were but two grown males. The rest were women and children. The immediate settlers—miners—reported against the murderers, and their statements I shall send you in a few days, showing that these Indians have been friendly and peaceable. If anything will serve to bring on a general Indian war, it is just such acts as these have proved to be. Troops are now stationed and placed them under the protection of the military of this post. The excitement runs high, and I have all I can do to carry out my intentions against the depraved moral sentiment evinced towards the poor savages. Things look tremendous now, but when the road to the Indian country becomes passable I shall quiet the troubled waters. In no case that I have examined have I found the red man the aggressor. Invariably the trouble springs from some fiendish outrage of bad white men."

THE FENIANS.

Head-Center Stephens Playing Out.

HE REFUSES TO MAKE PUBLIC THE FINANCIAL REPORT.

Queer Items in O'Mahony's Books.

NEW YORK, May 17.—The interest created by Mr Stephens' visit to this city seems to be rapidly passing away. This morning but few persons called on the Head Centre, at his parlors in the Metropolitan Hotel. Those who paid him a visit were composed principally of the officers of the late Fenian Headquarters in Union Square. The principal business transacted is in reference to the past and future finances. Mr. Stephens has positively refused to publish the financial report, and the Committee whom he appointed to examine the books of O'Mahoney and Killian. Some of the items found on the books were of an extraordinary character. Numerous items appear as scraps, involving large amounts of money, appear to have been paid for sending spies to the Roberts meetings.

THE MEXICAN WAR.

Success of the Imperialists.

SAN FRANCISCO, May 16.—The Imperial Consul of Mexico in this city, has received official dispatches, via Acapulco, announcing that the Liberals, after their defeat at Michoachan, endeavored to rally, but were surprised and completely routed. The occupation of Tanistaro, by the Imperialists, is officially reported.

Letters from Guaymas confirm the reports of the Republicans under Diaz occupying Putla and Flaxio, but say they remained only three days, leaving on the approach of the Austrians.

The *Mexico Estafette* says while Diaz was thus operating in Oajaca, Alvarez attacked Atapulco, but was decisively repulsed.

The Imperialist General has been obliged to abandon his campaign in Sinalo for lack of pecuniary means.

Gurley, 75; S. B. Wilson, 18. The number of Commissioners was two hundred and fifty-nine.

ADVICES FROM JAMAICA.

Suicide of Colonel Hobbs.

TESTIMONIAL TO GOVERNOR EYRE.

The Sugar and Coffee Crops.

NEW YORK, May 17.—Advices from Jamaica to the 7th inst. are received.

Intelligence had been received in private communications from England, that it was likely Sir Henry Storks would be confirmed as Governor of Jamaica, in the room of Ex-Gov. Eyre, who would be immediately recalled.

Col. Hobbs, the officer who commanded the forces sent out against the blacks during the late disturbances, and at whose orders some of the most horrible atrocities committed by the soldiers upon the negroes were perpetrated, has committed suicide. He had lately become so seriously deranged in mind that it was thought advisable he should return to England. He left Jamaica on an English steamer on the 21st ult., in the custody of another officer and two soldiers, but on the day after the vessel sailed, while walking on deck, attended by one of the soldiers, he suddenly struck down the man, jumped overboard, and was drowned.

Mrs. Gordon, the widow of Governor Gordon, left Jamaica on a visit to England, in response to an invitation from the anti-slavery society and the Jamaica committee. Strange to say, she was passenger on board the same steamer with Colonel Hobbs when he jumped overboard.

The partisans of Governor Eyre, who believed that he rendered great service to the Colony, in causing hundreds of innocent blacks to be butchered, are doing all they can to raise money in order to present him with a testimonial in acknowledgement of those services. Notwithstanding their efforts in three parishes, arrangements have been made for holding meetings in furtherance of the project. Eyre is reported to be in very bad health, completely prostrated both in mind and body.

In St. Thomas, in the east parish, in which the disturbances occurred, the planters are complaining of a want of laborers on the sugar estates. The crops are falling behind the yield expected, from lack of hands to cut the ripe canes. In other parishes, the yield of sugar is expected to be good, and the coffee crop of this year has been larger than for many years past. Coffee cultivation is carried on principally by small settlers and negro peasantry, and many of these have realized handsome sums by the sale of the crops they have just gathered in. The prospects for next year under this head are very cheering.

WAR IN ITALY PREDICTED.

Fleet Concentrated and Soldiers on Furlough Recalled.

THE GENERALS IN COUNCIL.

Napoleon the Wire Puller.

AUSTRIA PREPARING FOR DEFENSE.

Position of France Defined.

NEW YORK, May 17.—The *Tribune's* Florence, Italy, correspondent of April 30th, opens his letter thus: Within a fortnight we shall be involved in a war. The abandoned fortress of Cremona is being fortified in haste, the fleet concentrated and all the soldiers on furlough recalled, even the recruits of the classes 1864, '65 and '66. All the official papers fire the Italian heart. The Generals—Cialdini, La Marmora, Pettinengo, La Farina are specially called in military council. Everybody prepares for war, and still they try to shift the responsibility upon the Austrian armaments. In fact, Napoleon is the great wire puller, who first pushed Bismuck, and now pushes La Marmora, so that Austria cannot avoid war.

The venue is reported from the Paris *Patrie* says Austria is placing herself in a state of complete defence in the Quadrilateral. Troops are arriving from all points, and whilst one division marches to Verona, the military authorities are storing more especially in the fortresses of Verona and Mantua large quantities of warlike supplies. The artillery of Verona consists of more than five hundred cannon in battery, besides spare guns at all the points between Verona and Mantua. The Austrians have erected forts and entrenchments, which will be strongly armed. The Quadrilateral is, therefore, an immense entrenched camp, where all the advantages will be on the side of the defence.

Napoleon has made an exposition of the position of France towards Italy and the contending powers in general. He says, in substance, through M. Rouher, Minister of State: It is terse and decisive, declaring a pacific policy, an honorable neutrality, and entire freedom of action for the empire. Italy, the Emperor says, is free to choose her own course, but Italy, like Austria, must take on herself alone the risks of war. The statement gave rise to an animated scene in the *corps Legislatif*. Thiers and Jules Favre expressing their opinions.

FOREIGN NEWS PER JURI.

Mr. Gladstone on the Future of America.

LONDON, May 4.—In the House of Commons, May 3d, Mr. Gladstone made his annual financial statement for the ensuing year. He estimates the expenditure at £56,225,000, and the revenue at £57,575,000, leaving a surplus of £1,350,000.

Mr. Gladstone, in referring to the American debt, said these words: "I must confess that I think the future of America, as far as finance is concerned, will not be attended with any embarrassment. I do not believe that the debt will constitute any difficulty for the American people. In a moderate time it will be brought within very small limits, and may even within the lifetime of persons now living be effaced altogether. At this moment America is, I believe, paying war taxes, and the amount of the revenue of the United States is not less, I apprehend, than about eighty millions of money, the largest sum ever raised in any country for the purposes of a central government."

Bad Mistake of a Mayor—Arrest of a Banker as One of the Assassination Conspirators.

NASHVILLE, May 17.—The day has been observed as a day of fasting and prayer by proclamation of the Mayor, in accordance with previously published accounts that the President ordered the day to be so observed, on account of the near approach of cholera. Late in the afternoon it was discovered that no fast day had been thus designated by the President.

John Porterfield, formerly a banker, and an old resident, was arrested and lodged in the penitentiary, it is rumored, in consequence of being implicated with the conspirators in Canada, some time previous to the death of President Lincoln.

Fire in the Woods—Great Loss of Property.

BOSTON, May 17.—About four thousand acres of wood land were burned over the present week, principally in the towns of Sandwich and Monument. One dwelling house in West Sandwich was included in the destruction, and a large amount of corded wood. The loss of property is estimated at $50,000. At last accounts the conflagration had stopped spreading. There were heavy rains in the vicinity last night.

Victory Over the French in Mexico.

WASHINGTON, May 17.—Advices have been received from San Juan Bontista, the capital of the State of Tobasco, containing the official report of General Mendez, Governor of that State, of a victory which he obtained over the French at the town of Joinuta, on the 17th of April. After a short battle, the garrison of Joinuta surrendered to Colonel Mendez, with their cannon, arms, ammunition, etc. The French have lost in that way the only point they held in the State.

Ship Carpenters' Strike—Threatened Removal of the Business—Aid for the Strikers.

NEW YORK, May 17—The strike of the ship carpenters, joiners, and caulkers continues. Employers say if it lasts much longer they will remove their business to other ports. The average amount received weekly as aid to the caulkers is from $1,500 to $2,000. The working men's union, it is said, are about to contract a loan of $250,000 for the strikers.

CONGRESSIONAL PROCEEDINGS.

WASHINGTON, May 17, 1866.

SENATE.

The bill to prohibit the carriage, shipping or transportation of nitro-glycerine on passenger vessels or railroads, was passed.

The resolution to appoint commissioners to examine for a fresh water basin for the navy, at Portland, Me., was passed. An amendment to include New London, Conn., was voted down.

A bill to grant lands to aid in the construction of a railroad from the Central Pacific Railroad, in California, to Portland, in the State of Oregon, was passed.

The diplomatic appropriation bill was taken up at one o'clock.

Mr. Sumner withdrew the amendment increasing the salary of Mr. Hunter, Chief Clerk of the State Department, to $1,500, and offered a substitute, creating the office of Second Assistant Secretary at that rate from the first of July next, which was adopted by one majority.

On motion of Mr. Sumner, an amendment was adopted, that the salary of a Minister Plenipotentiary Extraordinary and Minister shall be that of a minister resident, except in countries now represented by Envoy Extraordinary.

On motion of Mr. Buckalew, the appropriation for secret service on contingent fund of the department was reduced from $80,000 to $50,000. The bill was then passed.

The West Point Academy bill came up.

An amendment, recommended by the Finance Committee, striking out sundry provisions of the bill, the effect of which amendment is to leave open the few remaining vacancies in Cadetships at West Point for the loyal men of the Southern States, was adopted.

Mr. Wade submitted an amendment, intended to be appended to the House resolution 127, proposing an amendment to the Constitution of the United States. It is as follows: Article—Section 1st, No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States, or shall any State deprive any person of life, liberty or property without the due process of law, nor deny any person within its jurisdiction the equal protection of the laws.

Sec. 2. No class of persons, as to any of whom, in the right of suffrage, any discrimination shall be made, shall be included in the basis of representation, unless such discrimination be in virtue of impartial qualification, founded on intelligence or property, or because of a former participation in the rebellion or other crimes.

Sec. 3. The public debt of the United States, including all debts or obligations which have been or may hereafter be contracted in suppressing the rebellion, or in carrying on the war in defence of the Union, or for payment of bounties or pensions incident to such war, and provided by law, shall be inviolable and shall not be taxable by any State; but debts or obligations which have been or may hereafter be incurred in aid of insurrection or of war against the United States, and claims for compensation for loss of involuntary or servile labor, shall not be paid by any State, nor by the United States.

Sec. 4. That Congress shall have power to confirm, by appropriate legislation, the provisions of this article.

Mr. Grimes introduced a joint resolution as follows, which was referred to the Committee on Naval Affairs:

Resolved, That a resolution, approved July 1st, 1864, entitled "An act to amend the several naval pension fund, &c., and the same is hereby amended, so as to require such portions of the said funds as are thereby ordered to be invested in the bonds or certificates of the United States, to be made as permanent loans to the United States at 6 per cent. interest per annum, and payable on the first day of January and the first day of July of each year; provided, that nothing herein contained shall be construed to amend or alter the aforesaid resolutions, except so far as relates to the mode of investment.

Mr. Wilson offered an amendment prohibiting the appointment of men who had served in the rebel army or navy, from the Naval Academy or as cadets at West Point.

Mr. Doolittle moved to insert the word "involuntary" before "servile labor."

Mr. Trumbull offered an amendment that no vacancy in States and districts not represented in Congress shall be filled while said States and districts are unrepresented. Disagreed to, 18th, 35 and 36. All the official papers fire the Italian heart. The Generals—Cialdini, La Marmora, Pettinengo, La Farina are specially called in military council. Everybody prepares for war, and still they try to shift the responsibility upon the Austrian armaments. In fact, Napoleon is the great wire puller, who first pushed Bismuck, and now pushes La Marmora, so that Austria cannot avoid war.

The venue is reported from the Paris *Patrie* says Austria is placing herself in a state of complete defence in the Quadrilateral. Troops are arriving from all points, and while one division marches to Verona, the military authorities are storing more especially in the fortresses of Verona and Mantua large quantities of warlike supplies. The artillery of Verona consists of more than five hundred cannon in battery, besides spare guns at all the points between Verona and Mantua. The Austrians have erected forts and entrenchments, which will be strongly armed. The Quadrilateral is, therefore, an immense entrenched camp, where all the advantages will be on the side of the defence.

Napoleon has made an exposition of the position of France towards Italy and the contending powers in general. He says, in substance, through M. Rouher, Minister of State: It is terse and decisive, declaring a pacific policy, an honorable neutrality, and entire freedom of action for the empire. Italy, the Emperor says, is free to choose her own course, but Italy, like Austria, must take on herself alone the risks of war. The statement gave rise to an animated scene in the *corps Legislatif*. Thiers and Jules Favre expressing their opinions.

FOREIGN NEWS PER JURI.

Mr. Gladstone on the Future of America.

LONDON, May 4.—In the House of Commons, May 3d, Mr. Gladstone made his annual financial statement for the ensuing year. He estimates the expenditure at £56,225,000, and the revenue at £57,575,000, leaving a surplus of £1,350,000.

Mr. Gladstone, in referring to the American debt, said these words: "I must confess that I think the future of America, as far as finance is concerned, will not be attended with any embarrassment. I do not believe that the debt will constitute any difficulty for the American people. In a moderate time it will be brought within very small limits, and may even within the lifetime of persons now living be effaced altogether. At this moment America is, I believe, paying war taxes, and the amount of the revenue of the United States is not less, I apprehend, than about eighty millions of money, the largest sum ever raised in any country for the purposes of a central government."

Rad Mistake of a Mayor—Arrest of a Banker as One of the Assassination Conspirators.

NASHVILLE, May 17.—The day has been observed as a day of fasting and prayer by proclamation of the Mayor, in accordance with previously published accounts that the President ordered the day to be so observed, on account of the near approach of cholera. Late in the afternoon it was discovered that no fast day had been thus designated by the President.

John Porterfield, formerly a banker, and an old resident, was arrested and lodged in the penitentiary, it is rumored, in consequence of being implicated with the conspirators in Canada, some time previous to the death of President Lincoln.

Fire in the Woods—Great Loss of Property.

BOSTON, May 17.—About four thousand acres of wood land were burned over the present week, principally in the towns of Sandwich and Monument. One dwelling house in West Sandwich was included in the destruction, and a large amount of corded wood. The loss of property is estimated at $50,000. At last accounts the conflagration had stopped spreading. There were heavy rains in the vicinity last night.

After a short battle, the garrison of Joinuta surrendered to Colonel Mendez, with their cannon, arms, ammunition, etc. The French have lost in that way the only point they held in the State.

NEW YORK, May 17—The strike of the ship carpenters, joiners, and caulkers continues. Employers say if it lasts much longer they will remove their business to other ports. The average amount received weekly as aid to the caulkers is from $1,500 to $2,000. The working men's union, it is said, are about to contract a loan of $250,000 for the strikers.

First Annual Convention of the Protestant Episcopal Church in the Diocese of Pittsburgh.

SECOND DAY.

The Convention met, according to adjournment, at 10 o'clock yesterday morning.

The usual services, including communion, then took place, the Reverends Spaulding, White, Taylor and Smith officiating. On account of indisposition, the President of the Convention, Bishop Kerfoot, was unable to be present, and the Rev. C. E. Swope acted in his stead. After the singing of several beautiful compositions by the choir, and the calling of the roll, the Convention adjourned, the hour having arrived.

AFTERNOON SESSION.

The Convention re-assembled at half-past three o'clock, the Rev. C. E. Swope presiding.

The report of the Committee on the right of clergymen to seats in the Convention was declared in order. The chairman of the Committee made a verbal report, stating that they had reviewed the list of clergy reported by the Bishop and found it to be correct in every particular. They therefore begged to be discharged.

The Committee on the admission of lay members made a report substantially the same as the preceding

WHAT WE THINK OF IT.

Last fall Sir MORTON PETO and other British capitalists made a visit to this country for the declared purpose of inspecting railroads in which they were largely interested, and of projecting other roads of formidable magnitude. A blowing of trumpets went before them, and the acclaim of expectant thousands welcomed them. Soon intimations were dropped that vast enterprises had been conceived, and would be matured with the utmost celerity. Hard after it was announced that the Morris and Essex Railroad of New Jersey, and the Reading and the Catawissa of Pennsylvania, had been permanently leased by the Atlantic and Great Western Railroad Company; that the Catawissa lease had been attended by the transfer of a right held by that Company to use the Philadelphia and Erie Road; and that unemployed charters had been secured, by the same interest, sufficient to make a new trunk line between the East and the West, connecting with both Philadelphia and New York. Not long after it transpired that gentlemen of the Atlantic and Great Western had made large contracts for coal lands in the districts to be developed by these new schemes.

Upon the opening of the Legislature almost an inconceivable number of bills were read in place to incorporate companies to construct railroads to intersect either the new trunk line or the line of the Atlantic and Great Western, or both. The excitement was intense.

Cool and sagacious railroad men, outside this particular clique, exchanged significant glances, and shrugged their shoulders. Their conviction was that the new scheme was devised either to enable the English holders of Atlantic and Great Western stock and bonds to sell out advantageously, or else to raise such vast sums as would complete the old projects while advancing the new ones; and so tide over serious difficulties.

This much is certain, that while the British capitalists were engaged in their tour of observation, an unexpected fire was opened on their rear in Europe. Such representations were made touching the cost of construction of the Atlantic and Great Western railroad; its running expenses; its present and prospective income; its dependence on the Erie Railway Company, and the fresh competition it was bringing on itself; that plutocratic pocket-books that were expected to open wide, were obstinately closed. A gentleman, whose presence was desired at Harrisburg, to harmonize by wise counsels and authoritative explanations, rival interests, was reported to have taken his departure suddenly on a pleasure trip to Cuba. He was not heard from in Cuba; and there are strong suspicions that instead of going thither he went to London. So much, at least, is seen through the fog and smoke, that the grand project for a new trunk line did *not* collapse among legislators at Harrisburg, but among capitalists abroad. The cash could not be obtained. Men of money did not see why, having invested many millions in roads that were paying none too well, if at all, they should advance as many millions more to build a new line which would compete as strongly with their old one as with the Pennsylvania Central.

At this point an injunction was applied for from the Supreme Court to restrain the Catawissa from assigning its right to use the Philadelphia and Erie to the Atlantic and Great Western. By arrangement, the validity of all the leases were included in the same proceedings. Judge Read heard the argument, and granted a temporary injunction. The matter will come up, this week, before the full bench at Wilkesbarre. In form, the Atlantic and Great Western will doubtless resist the granting of a permanent injunction; in fact, they want to have it granted. We so judge—

1. Because they have totally failed to raise the money needful to prosecute the plan of which the leases were a part, and without which the leases were comparatively valueless.

2. Because the same rulings which will cancel the leases in this State will probably cancel the lease in New Jersey. These leases, in any probable event, were about as foolish agreements on the part of the Atlantic and Great Western, as people having a reputation for wisdom in the conduct of affairs ever walked into with their eyes wide open.

3. Because Sir MORTON PETO, in his late report, made at home, stated that he and his associates were on the best terms with the Pennsylvania Central.

4. Because the Atlantic and Great Western Company have made a proposition to lease, to the extent of their own business, the Philadelphia and Erie Road, which proposition is satisfactory to the Pennsylvania Railroad Company, and has been sent to London for approval there by parties in interest, which it will most likely get. This proposition, when reduced to a legal agreement, will identify the Atlantic and Great Western with the Pennsylvania Railroad to such a degree as to stop collisions between them, and lead both to desire substantially the same things.

—We make these suggestions for the benefit of business men along the talked-of new line and those of Pittsburgh particularly. The upshot of it all is that the Atlantic and Great Western people have never had the resources with which to build a third trunk line, and now, owing to their fresh, though constrained, affiliation, have no wish to build it. If additional outlets are to be constructed, and especially from this city, our own folk must put their shoulders to the wheel.

THE SOUTH TAKING SIDES—This is the way the Nashville *Times and Press* talks:

"The contest between the President and the people is virtually settled; the latter are destined to be the victors. The Northern States, with over 25,000,000 of people, will go in a solid column against the programme dictated to them from the Executive Mansion. We rejoice for the sake of the South, who has so bright and glorious a career before her, under the humane and enlightened control of peace republicanism. It is for her interest, as regards immigration, capital, manufactures, education and general prosperity, that the policy of the President should be signally defeated."

MORMONDOM.

The Gentiles have not only invaded Utah, but become bold, even to audacity, in assailing "the patriarchial institution." The *Vidette*, which is the Gentile newspaper, has evinced a degree of radicalism quite offensive to Mr. BRIGHAM YOUNG and his fellow conservatives. The editor has been scolded, after the most approved fashion; has been denounced in the choicest billingsgate, and has been ferociously threatened with various dire afflictions, from simple cow-hiding up to bloody assassination, and all this without abating his public opposition to the nameless pollutions of Mormon society. At last, he has been forced to succumb. There are terrors before which even devoted martyrs quail and shrink back; and so this editor has suspended over his head horrors which appall his sturdy spirit. Just see what is denounced against him, and how he trembles in prospect of the impending doom:

"We stop the press to give place to the following; 'Now,' as the lark said to her young ones, 'it *is* time for us to leave!' We could stand the 'bloody land' and the 'skedaddle' of other warnings, but the following gets us. Just count us out!"

SALT LAKE CITY, April 9, 1866.

"*Mr. Editor Vidette:*—If you don't quit abusing Stenhouse and the Mormons, we'll come and *marry you*. We don't 'mean blood,' and we won't stand to have Stenhouse maligned; so you look out.

☞ '27 MORMON WOMEN.'"

"We weaken on the turn. Will some one take our place? '27 Mormon women' P-h-e-w! We apologize. We don't edit the *Vidette*—Stenhouse is a good fellow—a brave man—and he *can* look a dog in the face! Besides, he never did borrow a pair of brass knucklers. '27 M—' O Lord, have mercy upon us, miserable sinners! Don't shoot this way! We are not the man! '27 wives! We'll go!'"

Won't Congress hurry up a Constitutional Amendment for his relief?

An Unpublished Anecdote of Lincoln.

Anything told of that great and good man, ABRAHAM LINCOLN, will be read with interest. The following anecdote is related by the New York correspondent of the Cincinnati *Commercial:*

"A good, and what is better, an unpublished and authentic story about MR. LINCOLN, came to me the other day from a 'reliable' friend, which may as well be set up on your types now as at any other time. Conversing with Hon. James A. Briggs, formerly State Agent of Ohio in New York, one day at the White House, the late President said in reference to the rush of office-seekers and their ingenious devices to secure his attention:

'Why, Briggs, I believe there is even a system of female brokerage in offices here in Washington, for I am constantly beset by women of all sorts, high and low, pretty and ugly, modest and the other sort. Here, yesterday, a very handsome young woman called; she would not take a denial, was admitted, and went to work soliciting a certain office for somebody supposed to be her husband. She plead his cause dexterously, eloquently, and at times was almost successful by her importunate entreaties. By degrees she came closer and closer to me, as I sat in my chair, until really her face came so near my own that I thought she wanted me to kiss her. Then my indignation came to my relief, and drawing myself back and straightening myself up, I gave her the proper sort of a look and said: 'Mrs. ——, you are very pretty, and its very tempting; BUT I WON'T.'"

Southern Feeling.

A prominent citizen of this county, now on his travels in Texas, writes from a Southern city to a friend, as follows:

"I find the people, that is, the old residents, *thoroughly rebellious*. In my intercourse with them thus far, I find just what I expected, a profound contempt for President Johnson, personally and politically; and a purpose to support his "Policy," for no other reason than to break up the republican party, restore unconditionally the Southern States, and, with the aid of the northern democrats and conservative republicans, organize a party that will place the government again in the hands of the South. This is their bold, though, I fear, *not* unpracticable scheme, UNLESS CONGRESS SHALL STAND FIRM. A rebel of Kentucky thus expressed the idea to me: 'We intend to use the renegade demagogue, Johnson, who, without any sincerity of purpose, did so much during the war to break down the democratic party, and sold himself, Arnold-like, to the enemies of his country, to organize a party on which will combine every faction and element against the radicals. *Then we will kick him into Contempt.*'"

THE Richmond *Examiner* declares that "the men in the army and navy now, of Southern birth, expatriated themselves in regard to their States when they determined to remain in the Federal employment," and it fo lows up this insolent denunciation by the still more insolent assertion that "the Union will be a weak and pitiful force, that shall fail to strengthen itself by inviting us to our equal share in the naval and military appointments." Thus the groundwork is already being laid of a reconstruction platform that will give to the military and naval traitors who once fearfully betrayed the nation new opportunities for seizing defenceless forts and unarmed vessels, and it may soon become an avowed feature of "my policy."

STATE RIGHTS," as contended for by the friends of "my policy," mean the right to go out of the Union, to destroy the Government, and the right after failing in that experiment to come back into the Union to destroy the party that saved the Government.

GENERAL NEWS.

—A great deal of discussion is being had in loyal circles of Washington in reference to the late indictment of Jefferson Davis, and quite a number of the most talented lawyers express themselves as strongly of the opinion that the bill in question is wholly worthless, from the terms in which it is drawn. All of them agree that the indictment found at Norfolk one year ago is infinitely preferable to the one just presented, and that the bill originally presented in Washington is better than either.

—The opening in the Morganza levee is about four hundred feet wide, with a depth of ten feet, and that at Grand levee full a half mile in width. The combined flood of the two crevasses must speedily inundate the most productive and best cultivated lands in Louisiana, all the way to the Gulf of Mexico. It is one of the greatest disasters that has befallen the sugar region, and coming directly after the ruin of the late war, it will bankrupt thousands.

—The constitutionality of the act of Congress disfranchising deserters will be argued in the Supreme Court at Harrisburg next week by Mr. M'Clure in support of the act, and Mr. Sharpe in opposition to it. The case excites much interest, and its decision is of vital moment on many grounds. The bill in the hands of the Governor will doubtless be held by him until the court decides the question.

—An interesting and important decision touching the responsibility of common carriers has been decided at Milwaukee, in which the American Express Company are to pay two hundred dollars for damages done to a cremona fiddle while in transportation, notwithstanding attempted waiver of responsibility exceeding fifty dollars, expressed on the Company's blank receipt.

—It is understood that the Surgeon of Fortress Monroe has complied with the instructions of President Johnson, to furnish a special report upon the physical condition of Jeff. Davis. The nature of the case has not been made known, but there is reason to believe that it does not speak in very hopeful terms of his condition, and urges a less rigid system of confinement.

—The railroad running from St. Louis to Springfield was sold on the 13th inst., to John C. Fremont for $1,300,000. Seventy-seven miles of this road have already been completed. Its owners claim it will be worth $12,000,000 when completed. Four or five millions will be necessary to finish it.

—Commissioner Rollins has decided that an individual attending to any business before any department for which he does not receive pay, and which is done as an act of friendship, does not make him a claim agent nor require a license.

SPECIAL NOTICES.

AYER'S PILLS—Are you Sick, feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by the timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors, purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges the natural functions. Disease, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangements. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The purgative effect expels them. Caused by similar obstructions and derangement of the natural functions of the body, they are rapidly and thoroughly cured by the same means. None who have ever tried the virtues of these Pills will neglect employing them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangements of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them pleasantly, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE,

For the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Complaints, indeed for the whole class of complaints originating in biliary derangement, caused by the Malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking invalids of the army and the west, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by R. A. FAHNESTOCK'S & SON'S, Pittsburgh, and by all Druggists.

IN THE ORPHANS' COURT OF ALLEGHENY COUNTY, No. 129. March Term, 1866.

May 3, 1866, the petition of Polly Doughty, widow of Jesse Doughty, deceased, late of Elizabeth Borough, in said county, was presented to the Court, setting forth that said decedent died duly 25th, 1852, having first made his last will and testament, whereby and whereof he appointed all his personal and real estate to petitioner during her natural life, and after her decease to Elizabeth Doughty, now Elizabeth Bryson, a brother, Lewis M. Doughty, and the sister Hester Ann now the wife of William Collier, that petitioner is advised, and prays leave to say, that there should not be sufficient income from his real estate to support the petitioner, he empowered his executors to sell and convey so much of the real estate for her use and support; that said testator appointed Lewis M. Doughty executor of his said will, but that said executor declined to serve, and Letters of Administration, with the will annexed, were granted to Elizabeth Bryson, now Elizabeth Doughty, that said decedent owned at the time of his death the following described real estate in said borough, one of which lots was sold and conveyed to petitioner, May 26th October, 1860, for the sum of $800, as by deed recorded in Deed Book, Vol. 3, page 4, &c., and prays that the personal estate of said testator has been exhausted for the support of petitioner and her family, and the payment of said debt, and praying the court to grant an order directed to the Sheriff of Allegheny county, authorizing and empowering her, or some competent person, for the sale of the remaining part of said real estate, being the Eighth part of Lot No. 3 of ground in the plan of Elizabeth, for the purpose of petitioner, according to the direction of the said last will and testament, and showing that Lewis M. CITY AND NEIGHBORHOOD.

(ADDITIONAL ON FIRST PAGE.)

An Oratorical Display.

That portion of Webster street lying between Tunnel and Seventh was the theatre of quite an amusing scene yesterday morning. The chief actor on the occasion was a woman named Ellen Chuiety, who, infused with the spirit of a Miss Dickinson, stood in the middle of the street and delivered herself of an impromptu oration that had for its object the utter annihilation of a certain clique or party existing in that neighborhood, the recognized leader of whom is Bridget Lannen, who the speaker denounced as her bitter enemy for some cause she could not explain. The immediate cause of this oratorical outburst, was, as Ellen alleged, the killing of a huge cat, the property of the former, by Bridget. The arrival of Ellen's husband on the ground who politely conducted his better half into the house, put an end to the entertainment, much to the disgust of her auditors, who in point of numbers were very respectable.

Tour to the West.—The Vigilant Fire Company of Philadelphia are making arrangements for a grand tour to the west, next month. The Company will start June 17th, first visit Pittsburgh, go hence to Chicago, return to Pittsburgh and Niagara Falls, thence to Albany, return to New York, and wind up with a visit to Jersey City. They will only take their hose carriage, as the tunnels and bridges will prevent the transportation of their engine over the lines of railway. It placed upon a truck its smoke stack would stand fully fifteen feet from the ground.

Fire on Centre Avenue.—Yesterday morning at five o'clock fire was discovered issuing from the window of a small tenement house on Centre avenue, in the seventh ward, owned and occupied by James Reese.

With the aid of several buckets of water the flames were extinguished before doing any damage, save the burning of a straw bed and several quilts. The fire originated by a candle falling from the window sill into the bed, which immediately ignited.

The Good Intent House.—The project of erecting a new engine house for the Good Intent Fire Company, on the vacant space at the head of Webster street having been abandoned, it has been determined to raze the building now occupied by the company, on Wylie street near Logan, and erect upon its site a new edifice, at a cost estimated at four-teen thousand dollars. The plans and specifications are completed, and proposals have been invited by the Committee on City Property.

On a Visit of Inspection.—The Philadelphia Fire Chief, Mr. Ogden, a member of the Pittsburgh City Council, and Mr. Gould Marple, Chief Engineer of the Pittsburgh Fire Department, arrived in this city yesterday afternoon. Their object is to inspect our system of police and fire alarm telegraphing. They will visit the different offices today for that purpose in company with Mr. R. R. Wilson, chief superintendent of the department in this city.

New Bank.—Under the free banking law a number of citizens have formed a national banking institution for the convenience of merchants and others residing in the Fifth and Sixth wards. The organization was effected at a meeting held on the Third ward school house on Wednesday evening, and operations will shortly be commenced. The institution will be located on Penn street, in the Fifth ward.

Buckley's Serenaders.—This troop of minstrels—organized in Boston in 1843—will appear at Masonic Hall this evening, and give the first of a series of eight entertainments during their visit to Pittsburgh. Let the present occasion not prove an exception.

Mayor's Office.—Alderman E. S. Morrow is officiating as chief magistrate, his Honor, Mayor Lyon, having left for Cleveland this morning. Four common cases were disposed of. Two were discharged, and Charlotte Barnes and Mary Miller, habitues of the New York, had arrived at Vera Cruz, for the use of the Imperialists. Indecisive skirmishes were taking place daily throughout all parts of the country.

Mr. Bureda, who has just arrived at Washington from Europe, brings information that the thirty-second Austrian troops had been shipped to Mexico, since the determination to withdraw the French troops was made public. He suggests, from the fact, that the shipments, that the protest created by Mr. Seward had already been made to the Austrian Government.

The Revolution at St. Domingo.

NEW YORK, May 17.—Advices from St. Domingo state that on the 5th of April, the insurgents attacked the city of Santiago, and after paying Neiba and defeated them, taking one hundred and thirty prisoners and most of their guns. The revolution, there can be no doubt, is backed by the Government, which supplies them with money, guns, powder and provisions. The commander of the government forces was waiting for reinforcements. Primental had been proclaimed President, and the insurgents were on their march to the capital.

Fenians and Sweenyans.

NEW YORK, May 17.—Mr. Stephens received a number of military gentlemen yesterday. He is chiefly engaged in considering financial matters, and furnishing everything needful to applications from all quarters. The Fenian Senate is in session, and their mysterious action is regarded by some as ominous. They ignore Stephens' authority altogether.

South Carolina Stay Law Unconstitutional.

NEW YORK, May 17.—The *Times*'s special says it learns from Charleston, by telegraph, that the South Carolina Stay Law had been decided unconstitutional by the Court of Errors, at Columbia, to-day.

Getting Warm.—As the time approaches for the holding of the Union Republican County Convention, the interest for nominations for the various county offices grows exceedingly warm. The Convention will be held on the 29th, the delegate elections to take place on the 26th.

Paving.—Union and Cedar Avenues—the former from Montgomery Avenue, and the latter from Ohio street to Washington street—are now being paved. Both of these thoroughfares will be so improved their whole length during the summer.

Sprung a Leak.—A fountain on the second story of Wilkins Hall, undergoing fitting up as an ice cream saloon, has sprung a leak, damaging the ceiling of the Mayor's office, on the first floor. Men were at work yesterday endeavoring to remedy the defect.

Had their Pockets Picked.—Mr. Stephen Struntz, soap manufacturer, and an old gentleman named Robert Getty, had their pockets picked at the Circus, in East Birmingham, on Wednesday evening. The former was relieved of $170, and the latter of $25.

Railroad Progressing.—The grading of the Western Pennsylvania Railroad has been nearly completed, and the track laid from Avery street, Allegheny, to the upper end of Duquesne borough. It will be completed during the summer.

Cricket.—A meeting of professors of the bat and ball was held at Neil Chessman's, the headquarters, Clair street, last evening, and arrangements made for a match game. The time for its coming off will be duly announced.

Organized.—The Stock Sanitary Committees of East Birmingham met at the Academy on Wednesday evening, and after organizing adjourned. Dr. M. A. Arnholt was chosen chairman, and Mr. John P. Heisel Secretary.

Another "Twenty."—Isaac Shaffer, a young Alleghenian, had a hearing yesterday on a charge of passing a twenty dollar note, National currency. He was committed for trial in default of $3,000 bail.

At Glenwood.—The Pittsburgh "Union Club" members hold a pic nic at Glenwood Grove yesterday. The Excelsior band was in attendance, the day was fine, and full enjoyment was experienced.

Not Yet Completed.—The improvements at the Mayor's office are not yet completed, the back room, formerly occupied by the Mayor as an office not having as yet received the finishing touches.

Bridge Proposals.—The County Controller advertises for proposals for certain repairs to the bridge over Chartiers creek, on the line between Chartiers and Robinson townships.

Good.—Mr. Porter requests us to state that on and after Monday next Fifth street will be sprinkled as far as Ross street, and also one square on Grant and one on Wylie.

Sunday Selling.—James McCutcheon, of the Fourth ward, is under bail for a hearing before the Mayor, on Saturday next, on a charge of selling liquor on Sunday.

New Sidewalk.—A new sidewalk has been put down in the front of the railroad depot, on Federal street, Allegheny, at the expense of the railroad company.

Not in Session.—The District Court was not in session yesterday, having adjourned till to-morrow.

Paid It.—John Orr, adjudged by Alderman Donaldson guilty of wilfully obstructing the track of the Pittsburgh, Allegheny and Manchester Passenger Railway Company, yesterday paid the penalty prescribed by the Act of Assembly in the case made and provided, viz: five dollars.

FINANCE AND TRADE.

THURSDAY, MAY 17, 1866.

The gold market is steady in New York to-day at 136. The effect of the large shipment on Wednesday was counteracted by a sale of more than an equal amount by the government at 136¼. Doubtless we would have seen quotations at 135@135 had that not been the case. Sixes of 1881 fell off¼ to-day, while 5-20s rose the same amount. The amount of the latter reported returned by the Steamer Java were much over rated, consequently there was a small recovery. There is no change in 7-30s. New York quotations 102½. They are slow of sale here at anything above 102.

The home stock market is without any change of moment. Bank stocks are in demand, even at present high quotations. We ay report sales of Allegheny National at 58¾ and 59; of Bank of Commerce National at 107½; of a small lot of M. & M. National at 63½; Fourth National offered at 108. Peoples National in request at 109. Exchange and Citizens sought after, but none in the market at reasonable figures. Railroad shares are quiet. We can report no sales.

Oils rousing up in a small way. Columbia steady at 18¾@19. One or two of the long forgotten list begin to show signs of life again. It is said there are buyers for Ritchie at 20 cts. per share, for Pittsburgh and New York, and some at 10. "While there is life there is hope," but really, we thought these were dead. Copper stocks are getting lively again in the Boston market. Quincy at 49@50; Cliff at 16; Franklin at 44½; Pewable at 38; Minesota at 11; National at 17; Rockland at 4½.

The loan market is quite brisk, and rates are advancing. No. 1 commercial paper, however, is not plenty. Lower grades press the market to some extent, though by no means in excessive amounts. It was feared that the failure of Work, McCouch & Co., and the suspension of Messrs. Kramer & Rahm, would act unfavorably upon the loan market here, but the amount permanently blocked up will be too insignificant to cause any contraction of moment to borrowers. The senior partners, we are told have, as was universally expected from their established character, at once, and without debate, turned over their private and personal effects to secure creditors of the house here. The characteristic promptness with which they have acted, deserves honorable mention, and depositors will wait the few days necessary to complete the arrangements for their payment with patience, and entertain none but honorable reflections upon either of them. Whatever may be said or thought about the operations of the Philadelphia house, which brought on this disaster, there have been, and we trust will be, but one opinion in regard to the gentlemen we have mentioned. The failure is through no fault of theirs. Misplaced confidence, perhaps, an any easy thing to do in a wicked world, has brought sudden misfortune. A generous public will mention their names with respect, and their readiness to bear the entire brunt of the misfortune is so clearly made evident. They will pardon us for saying this much, and accept our sincere regrets over the unexpected turn in fortune.

—Stock circles were calm yesterday after the severe storm of the previous day. The suspension of three houses simultaneously was an event well calculated to arouse the financial fraternity of Third street, and fill with alarm men of less excitable temperament. We had hoped that the correspondents as to the stability of certain firms would settle down into their every day routine, and were consequently ill-disposed yesterday to injure, by the publication of the suspected names, parties that might possibly turn up all right. The firms who failed were Messrs. Work, McCouch & Co., Work, Graham & Co., and R. T. Raley. As to the latter two, no hope is entertained of their recovery, and their creditors expect little or nothing. Work, McCouch & Co., however, are not hopelessly beyond the power of redemption, although for the present there is terrible confusion. It is understood that nothing definite can be said as to their future settlements. As a banking house they stood very high with the public, the members of the firm were extensively known and confidently trusted. Six or eight months ago they undertook to carry a large load of Hestonville railroad shares for parties, and the rising figures for the stock being very low, they bought largely on their own account, until finally they got control of the company's affairs, and intended its direction, and owned almost the entire capital stock of the concern. By the manipulations of the *bulls* and *bears* at the stock Board the stock gradually advanced as high as 47 from 13, the starting point. The outside public never bought Hestonville to any extent; and as the stock was offered at the board, McCouch & Co. were obliged finally to buy it in, in order to keep up the tone of the market, for a break in the price was a break in the firm. It was too heavy a load to carry, and the break was a matter of time. Last week they were borrowers to a large extent from private parties and the banks, and such was their credit and standing at Baltimore that as much as a million could have been had on call, and that was asked for. One of the banks loaned the firm $90,000 on saturday, and this we are assured was paid in on Monday morning. The condition of the bank as to the condition in which Messrs. Work, McCouch & Co. then stood. For the firm personally there is a three-cornered difficulty, so much so that they have already received offers of assistance from brokers in their immediate neighborhood. Whether they will be accepted or not we know about which there is a considerable doubt. If it should turn out that the Pittsburgh branch of the house, Messrs. Kramer & Rahm, who are reputed to be very wealthy, have been unencumbered by the local difficulties here, the street may again welcome back this (for the present) unfortunate firm to its former position of solid financial power. The senior partners, we are told have, as was universally expected from their established character, at once, and without debate, turned over their private and personal effects to secure creditors of the house here. The characteristic promptness with which they have acted, deserves honorable mention, and depositors will wait the few days necessary to complete the arrangements for their payment with patience, and entertain none but honorable reflections upon either of them. By the manipulations of the *bulls* and *bears* at the stock Board the stock gradually advanced as high as 47 from 13, the starting point. The outside public never bought Hestonville to any extent; and as the stock was offered at the board, McCouch & Co. were obliged finally to buy it in, in order to keep up the tone of the market, for a break in the price was a break in the firm. It was too heavy a load to carry, and the break was a matter of time. Last week they were borrowers to a large extent from private parties and the banks, and such was their credit and standing at Baltimore that as much as a million could have been had on call, and that was asked for. One of the banks loaned the firm $90,000 on saturday, and this we are assured was paid in on Monday morning. The condition of the bank as to the condition in which Messrs. Work, McCouch & Co. then stood. For the firm personally there is a three-cornered difficulty, so much so that they have already received offers of assistance from brokers in their immediate neighborhood. Whether they will be accepted or not we know about which there is a considerable doubt. If it should turn out that the Pittsburgh branch of the house, Messrs. Kramer & Rahm, who are reputed to be very wealthy, have been unencumbered by the local difficulties here, the street may again welcome back this (for the present) unfortunate firm to its former position of solid financial power. The senior partners, we are told have, as was universally expected from their established character, at once, and without debate, turned over their private and personal effects to secure creditors of the house here. The characteristic promptness with which they have acted, deserves honorable mention, and depositors will wait the few days necessary to complete the arrangements for their payment with patience, and entertain none but honorable reflections upon either of them. Whatever may be said or thought about the operations of the Philadelphia house, which brought on this disaster, there have been, and we trust will be, but one opinion in regard to the gentlemen we have mentioned. The failure is through no fault of theirs. Misplaced confidence, perhaps, an any easy thing to do in a wicked world, has brought sudden misfortune. A generous public will mention their names with respect, and their readiness to bear the entire brunt of the misfortune is so clearly made evident. They will pardon us for saying this much, and accept our sincere regrets over the unexpected turn in fortune.

—Stock circles were calm yesterday after the severe storm of the previous day. The suspension of three houses simultaneously was an event well calculated to arouse the financial fraternity of Third street, and fill with alarm men of less excitable temperament. We had hoped that the correspondents as to the stability of certain firms would settle down into their every day routine, and were consequently ill-disposed yesterday to injure, by the publication of the suspected names, parties that might possibly turn up all right. The firms who failed were Messrs. Work, McCouch & Co., Work, Graham & Co., and R. T. Raley. As to the latter two, no hope is entertained of their recovery, and their creditors expect little or nothing. Work, McCouch & Co., however, are not hopelessly beyond the power of redemption, although for the present there is terrible confusion. It is understood that nothing definite can be said as to their future settlements. As a banking house they stood very high with the public, the members of the firm were extensively known and confidently trusted. Six or eight months ago they undertook to carry a large load of Hestonville railroad shares for parties, and the rising figures for the stock being very low, they bought largely on their own account, until finally they got control of the company's affairs, and intended its direction, and owned almost the entire capital stock of the concern. By the manipulations of the *bulls* and *bears* at the stock Board the stock gradually advanced as high as 47 from 13, the starting point. The outside public never bought Hestonville to any extent; and as the stock was offered at the board, McCouch & Co. were obliged finally to buy it in, in order to keep up the tone of the market, for a break in the price was a break in the firm. PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, May 17, 1866.

There is but little that is new in commercial matters. The demand for most of the leading commodities has fallen off somewhat, and while the excitement which prevailed a few days since has subsided, prices, nevertheless, are pretty well maintained.

ASHES—Pearls are in demand, and in light supply—sell readily at 13. Potash quiet at 8 to 8¼. Soda Ash dull and nominal at 5¼ for common and 6½ for Refined.

GREERIES—Sugars steady but unchanged. Cuba is selling at 12 to 12½; Porto Rico, 13 to 14; Soft Refined 15¼@16; and hard ditto 17. Coffee is quoted firm at 35 to 37½ for common to strictly prime Rio. Molasses quoted at 75 to 80 for Porto Rico, and $1,15@1,20 for New Orleans. Rice, 10¼ for Rangoon—no Carolina in market.

GRAIN—Wheat is quiet but unchanged—receipts increasing. Rye is in demand and we can report sales of 1000 bushels at $1, and 1 car to arrive, at $1. Oats dull, with sales of western on track, at 50—small sales from store at 58@60. Corn is in demand and may be quoted at 85 to 90 from store. No movement in Barley.

FLOUR—Continues to come in pretty freely but the demand is fair and the market steady, and prices are pretty well maintained. Rye Flour is scarce and firm—being quoted at $6,50@6,75.

PROVISIONS—Bacon is quiet but steady, with a continued fair jobbing demand at 14 to 14½ for shoulders; 17 for Ribbed Sides; 21½ for Plain Sugar Cured Hams, and 23 for Canvassed do. Lard is quiet and unchanged at 23 for prime kettle. Mess Pork quoted at $22@22½.

POTATOES—Prime to good in demand at the advance. Peach Blows sold in lots from store to-day at $1,40 to $1,50 per bush, and $4 to $4,25 per barrel. Sale of 1 car, on track, at $1,30.

BUTTER—There was some little inquiry for shipment to-day, but there is no improvement in prices, 25c being thebest figure named for prime Rolls.

EGGS—Firm, and with light arrivals, fresh packed may be quoted firm at 20.

DRIED FRUIT—In small fair and market steady, but prices remain unchhnged. We continue to quote at 15 to 17 for Apples, and 18 to 22 for Peaches.

PIG LEAD—Is scarce and higher; sale of 350 pigs at 11.

HAY—May be quoted at $20 to $25.

SEEDS—Timothy is dull and unchanged.

OILS—No. 1 Lard is quoted at $1,85.

BEANS—Dull; prime White $1,75 per bush.

HOMINY—Small sales at 4@4¼.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, May 17, 1866.

CRUDE—There is no improvement to note in the demand for Crude, and the market continues dull and depressed, with a drooping tendency. Quotations may be fairly given at 13½@14, bbls returned, and 19 to 19½, bbls included, and these may be regarded as the extremes of the market. Sale of 100 bbls at 14½, bbls returned; and 250 at 19, bbls included, and it was reported that there had been some few small sales at 14. There was some little inquiry for Refined this morning, but no sales were made. There were orders to-day for Philadelphia delivery at 41¾ for May; 42 for June; and 44 for August, but thus far sellers cannot be found at these figures. The unfavorable character of the foreign news together with the apparent confusion in money matters, tends to depress the market both here and in the East, but we hope to be able to record an improvement before many days elapse. There is next to nothing doing in free oil.

ARRIVALS—The arrivals of oil by the Allegheny River since our last report, were as follows:

W. P. Logan	283	Fisher & Bro. 581
H. McKelvy	329	Baxter & Ellison 62
W. Halderman	221	J. T. Stockdale 400

CENTRAL LIVE-STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, May 17, 1866.

CATTLE—There has been a remarkably brisk demand for cattled this week, and with a good attendance of buyers, and only moderate arrivals, the market ruled very firm, and prime to extra grades have still further advanced. The advance here is in sympathy with the advance reported both in New York and Chicago, and holders experienced no difficulty in selling out, and that too, at extreme prices. Prime to extra fat cattle may be quoted at 8 to 8½, with a sale of extra Ohio steers reported at 8¾@9, the highest figure realized at these yards for a considerable length of time. Common to medium grades of cattle sold at from 6 to 7@7½, and, as already stated, all of the cattle on sale were greedily picked up, and that, too, at pretty steep figures. If the eastern markets should turn out hard next week, we are of the opinion that we could name several parties who will be out of pocket considerably, as the figures for cattle this week ruled higher than for a long time.

SHEEP—The transactions in sheep have been moderate this week, and while the market was tolerably active, prices, as compared with last week, have declined from ½ to ¾ of a cent per pound. Clipped sheep sold this week at from 5 to 5¾, per pound gross—one drove of extra, averaging 109 lbs, brought 6; while best wool, buyers were very plenty, and so great was the competition, that the same class of sheep sold at 6¾ to 6¾. No transactions in wooled Sheep or Lambs.

HOGS—Demand fair and market steady, while prices have undergone but little change ranging from 9 to 9¾, gross—some few bunches of prime heavy corn fed lots bringing 9¾@10. The receipts continue fair, but the demand seems to keep pace with the supply, and prices, consequently, are pretty well maintained.
